397621: Establishing a Successful Business MGMT-X 497.615

Summer 2024 Section 1 4 Credits 06/26/2024 to 09/04/2024 Modified 04/08/2024

Description

The key to reducing the risks and increasing the chances of success in business is to develop a business model that delivers unique value. To accomplish this, particpants must be able to objectively analyze the competitive landscape and innovate and articulate their unique value so they can implement a strategy and anticipate the financial rewards. This course examines the essential elements of success. Designed for business owners, key executives, managers and those developing a business, the course teaches participants how to define a business model and strategy that equips their company to thrive, even in intensely competitive industries. Topics include competitive analysis, creating and defining a unique selling advantage, identifying the customer and honing a strategy. Real-world situations are used for examples of application. Participants leave with the tools to develop a business model and strategy that creates value and allows them to work on their business instead of for their business.

Objectives

The course aims to provide some 'real world' examples of effective development and implementation of these. Instruction also introduces several tools and techniques that will bring structure to brainstorming, aid development and allow better decision-making.

Outcomes

The end product is an understanding and a series of examples that can be used in the development of your own business model and strategy. At the end of the 11 weeks, each student should have identified their target market, defined a unique value proposition that will differentiate them from their competition.

Deliverables

Assignments

1. Exercises are exploration of the lessons and lectures of the critical areas of developing a business. The exercise will be a guided discovery to help you develop a deeper understanding, and to get you started in the direction of finding your own answers. It will be your responsibility to locate and refine the information into clear and concise summaries. I expect you to provide as much information as possible in the least amount of words. You then will be expected to post your findings in the appropriate discussion board for the class to share. This allows your fellow students to quickly review your findings. We will also review these as a group in our next class meeting. Note, these exercises will not be specific to your business. (worth 24 points)

2. Value Strategy and Unique Value Proposition are the central components of business development. Note, these are specifically related to your business. You will use the lessons and your observations from the exercises to assist you in the assignments that focus on your own business. (worth 35 points)

3. The Final Project will be a two-minute presentation of your value strategy, supported by a 4 slide deck. Note, this also is specifically related to your business. (worth 20 points)

The assignments and final project are a cumulative portfolio project where you iterate to a refined presentation for the final presentation. Complete all of the assignments and exercises on time and participate on a regular basis, and you should be well prepared for your final project with only a limited amount of time and organization required to complete it. You are expected to attend the lessons, complete the exercises and share your findings with the class so all may benefit from each participants findings.

The evaluation of the exercises, assignments and final project are mostly subjective.

4 qualities are considered:

Research - focused research with reliable sources
Definition - clear and concise explanations
Organization - good structure, flow and clarity
Presentation - coherent articulation and illustration of key points

Institutional Policies

Student Conduct

Students are subject to disciplinary action for several types of misconduct or attempted misconduct, including but not limited to academic dishonesty, such as cheating, multiple submission, plagiarism, or knowingly furnishing false information to the University; or behavioral misconduct, such as theft or misuse of the intellectual property of others, harassment, or disruption of the learning environment.

All published and unpublished material, whether in manuscript, printed or electronic form, is covered under this definition and includes the use of material generated wholly or in part through the use of artificial intelligence (except when the use of AI has received prior authorization for assessment as a reasonable accommodation for a student's disability, or when the use of AI is a specified part of the coursework, e.g. data science or user experience). Students are encouraged to familiarize themselves with the Student Rights & Responsibilities Policy (https://www.uclaextension.edu/student-services/rights-and-responsibilities) and to report concerns.

Services for Students with Disabilities

In accordance with the Americans with Disabilities Act of 1990, UCLA Extension provides appropriate accommodations and support services to qualified applicants and students with disabilities. These include, but are not limited to, auxiliary aids/services such as sign language interpreters, assistive listening devices for hearing-impaired individuals, extended time for and proctoring of exams, and registration assistance. Accommodations and types of support services vary and are specifically designed to meet the disability-related needs of each student based on current, verifiable medical documentation. Arrangements for auxiliary aids/services are available only through UCLA Extension's Service for Students with Disabilities Office at (310) 825-7851 or by email at ODS@uclaextension.edu. For complete information, please visit Accessibility and Disability Services (https://www.uclaextension.edu/enrollment-and-support/accessibility-and-disability-services).

Incompletes

The interim grade Incomplete (I) may be approved for a student who has completed the majority of the course requirements, with passing quality (grade C or higher), but is unable to complete a small portion of the coursework by the course end date for good cause. For courses in which an Incomplete may be allowed, approval by the instructor of record and the academic program director is required. The Incomplete grade is not an option for courses that do not bear credit, such as 700, 800, or 900-level courses.

- It is the student's responsibility to petition for an Incomplete by emailing the appropriate academic program department (https://www.uclaextension.edu/contact-ucla-extension) at least one week before the end of the course. The Program Department will initiate the petition process once the email is received.
- The student, the instructor, the CE/Program Director, and the program staff must complete the

petition prior to the final course meeting or before the quarter end date (https://www.uclaextension.edu/calendar). This process can take up to one week to complete.
- The instructor will approve or deny the request. The instructor will provide details on what the student needs to accomplish in order to complete the course, as well as a due date for submitting completed work. The due date cannot exceed the end of the ensuing quarter (https://www.uclaextension.edu/calendar) when a final grade must be reported or the Incomplete lapses to the grade "F," "NP," or "U." Visit UCLA Extension Grading Scale (https://www.uclaextension.edu/transcripts-credits-grades/grading-scale) for more information.

An Incomplete allows the student to complete only work that is outstanding and does not allow prior completed work to be retaken or resubmitted.

All Grades are Final

No change of grade may be made by anyone other than the instructor, and then, only to correct clerical errors. No term grade except Incomplete may be revised by re-examination. The correction of a clerical error may be authorized only by the instructor of record communicating directly with personnel of Student and Alumni Services.

Course and Instructor Evaluation

UCLA Extension values your feedback on course and instructor evaluations. We ask all students to take a few minutes to complete an end-of-course evaluation survey. Updates to the course and instruction are influenced by your feedback. Understanding your student experience is essential to ensure continuing excellence in the online classroom and is appreciated by your instructor and the UCLA Extension academic leadership.

Your participation in a survey is voluntary, and your responses are confidential. After instructors submit grades, they will be given an evaluation report, but this report will not contain your name.
