Description

A majority of businesses fail within the first two years, and a significant percentage of the initial survivors don't last much longer. There are many reasons for this, including inexperienced management, lack of sufficient capital, failure to do proper marketing and a lack of financial competency. The bottom line is that most managers don't know how to properly systematize, structure and manage their businesses. They don't know because they're not aware of where or how to find this information. This course is designed to teach students how to properly structure, systematize, and manage a business of any size or type, service, or product--and in any industry.

Objectives

Through the use of video presentation, article discussion, an interview of an entrepreneurial small business and group work, course participants will examine the various methods, techniques and tools for managing, operating and leading teams in diverse small business settings and its impact on the success of these organizations. Extensive participation in class is expected and will advance the participants' ability to communicate and analyze concepts with clarity and fluency through other class assignments.

Outcomes

Upon successful completion of required coursework, the student will be able to:

1. Describe how small business entrepreneurs and manager utilize best practices to operate and grow their enterprises.

2. Understand effective methods to research, critically analyze and make decisions by understanding how to manage and lead in changing environments.
3. Become aware of current strategic marketing, financial, operational and management techniques to advance your unique value.

Incompletes

The interim grade Incomplete (I) may be approved for a student who has completed the majority of the course requirements, with passing quality (grade C or higher), but is unable to complete a small portion of the coursework by the course end date for good cause. For courses in which an Incomplete may be allowed, approval by the instructor of record and the academic program director is required. The Incomplete grade is not an option for courses that do not bear credit, such as 700, 800, or 900-level courses.

- It is the student's responsibility to petition for an Incomplete by emailing the appropriate academic program department (https://www.uclaextension.edu/contact-ucla-extension) at least one week before the end of the course. The Program Department will initiate the petition process once the

email is received.

- The student, the instructor, the CE/Program Director, and the program staff must complete the petition prior to the final course meeting or before the quarter end date (https://www.uclaextension.edu/calendar). This process can take up to one week to complete.
- The instructor will approve or deny the request. The instructor will provide details on what the student needs to accomplish in order to complete the course, as well as a due date for submitting completed work. The due date cannot exceed the end of the ensuing quarter (https://www.uclaextension.edu/calendar) when a final grade must be reported or the Incomplete lapses to the grade "F," "NP," or "U." Visit UCLA Extension Grading Scale (https://www.uclaextension.edu/transcripts-credits-grades/grading-scale) for more information.

An Incomplete allows the student to complete only work that is outstanding and does not allow prior completed work to be retaken or resubmitted.

All Grades are Final

No change of grade may be made by anyone other than the instructor, and then, only to correct clerical errors. No term grade except Incomplete may be revised by re-examination. The correction of a clerical error may be authorized only by the instructor of record communicating directly with personnel of Student and Alumni Services.
