Date: 6:30PM - 9:30PM

Format: In-Person

Description

This course emphasizes the managerial process in the international environment and provides an operational assessment of the fundamental issues involved in the management of international and multinational corporations. Instruction focuses on analyzing case studies related to upper and middle management issues, although the lessons apply to all levels and functions of international operations. Topics include matching foreign investment strategies with local conditions, managing export/import operations, trade and direct investment, local sourcing versus importing components, licensing and international joint venturing, designing organizational structures that match changing international conditions, managing a global structure, managing political risks, acquisitions, and integrating new businesses and dealing with international ethical considerations.

Objectives

The goal of this course is to learn to recognize, analyze, and develop solutions to managerial issues with international dimensions. The perspective will vary from large multinational corporations to small and mid-size companies working internationally.

Our focus will be multi-dimensional in the sense that we will approach various management problems from differing perspectives. We will examine international business not only from an American point of view, but rather from other perspectives looking at the US and international management issues that don't involve US elements.

We will employ lecture, discussion, case study, research, and presentation as our learning methods. We will examine a real world situation every class and discuss the issue and examine possible solutions. We will cover management from a strong strategic perspective and process. We will focus on international management solutions and not the application of American management practices in international settings.

We will cover at least one chapter, one assigned case study, and independent study of current issues each week. We will also view an occasional video, do an in-class exercise, or have a guest speaker.

Deliverables

Assignments:

Group Analysis: During the class the group will be given an assignment based upon a current issue with a focus on submitting recommendations for corporate implementation. The group will prepare a report and presentation.

Integrative Project: You will work in groups (3-5 students) and complete the Integrative Term Project in the text. A plan describing the project and each student's role in the project must be presented and approved by the Instructor prior to commencing. Group projects require work from ALL members of the team. Lack of contribution in this project will **strongly** affect your grade in this exercise. This project will begin during the 4th week of class and is due by week 10's class.

Final: A final exam will be given during the last class period. It will be comprehensive and a blue book will be required.

Institutional Policies

Student Conduct

Students are subject to disciplinary action for several types of misconduct or attempted misconduct, including but not limited to academic dishonesty, such as cheating, multiple submission, plagiarism, or knowingly furnishing false information to the University; or behavioral misconduct, such as theft or misuse of the intellectual property of others, harassment, or disruption of the learning environment.

All published and unpublished material, whether in manuscript, printed or electronic form, is covered under this definition and includes the use of material generated wholly or in part through the use of artificial intelligence (except when the use of AI has received prior authorization for assessment as a reasonable accommodation for a student's disability, or when the use of AI is a specified part of the coursework, e.g. data science or user experience). Students are encouraged to familiarize themselves with the Student Rights & Responsibilities Policy (https://www.uclaextension.edu/student-services/rights-and-responsibilities) and to report concerns.

Services for Students with Disabilities

In accordance with the Americans with Disabilities Act of 1990, UCLA Extension provides appropriate accommodations and support services to qualified applicants and students with disabilities. These include, but are not limited to, auxiliary aids/services such as sign language interpreters, assistive listening devices for hearing-impaired individuals, extended time for and proctoring of exams, and registration assistance. Accommodations and types of support services vary and are specifically designed to meet the disability-related needs of each student based on current, verifiable medical documentation. Arrangements for auxiliary aids/services are available only through UCLA Extension's Service for Students with Disabilities Office at (310) 825-7851 or by email at ODS@uclaextension.edu. For complete information, please visit Accessibility and Disability Services (https://www.uclaextension.edu/enrollment-and-support/accessibility-and-disability-services).

Incompletes

The interim grade Incomplete (I) may be approved for a student who has completed the majority of the course requirements, with passing quality (grade C or higher), but is unable to complete a small portion of the coursework by the course end date for good cause. For courses in which an Incomplete may be allowed, approval by the instructor of record and the academic program director is required. The Incomplete grade is not an option for courses that do not bear credit, such as 700, 800, or 900-level courses.

- It is the student's responsibility to petition for an Incomplete by emailing the appropriate academic program department (https://www.uclaextension.edu/contact-ucla-extension) at least one week before the end of the course. The Program Department will initiate the petition process once the email is received.
- The student, the instructor, the CE/Program Director, and the program staff must complete the

petition prior to the final course meeting or before the quarter end date (https://www.uclaextension.edu/calendar). This process can take up to one week to complete.
- The instructor will approve or deny the request. The instructor will provide details on what the student needs to accomplish in order to complete the course, as well as a due date for submitting completed work. The due date cannot exceed the end of the ensuing quarter (https://www.uclaextension.edu/calendar) when a final grade must be reported or the Incomplete lapses to the grade "F," "NP," or "U." Visit UCLA Extension Grading Scale (https://www.uclaextension.edu/transcripts-credits-grades/grading-scale) for more information.

An Incomplete allows the student to complete only work that is outstanding and does not allow prior completed work to be retaken or resubmitted.

All Grades are Final

No change of grade may be made by anyone other than the instructor, and then, only to correct clerical errors. No term grade except Incomplete may be revised by re-examination. The correction of a clerical error may be authorized only by the instructor of record communicating directly with personnel of Student and Alumni Services.
